Overview

In the competition for research funding, there is no secret to achieving guaranteed success. Having access to the right information at the right time to achieve a thorough understanding of the funding landscape is essential.

For more than 20 years, Research Professional has focused on the real needs of the researcher to find funding opportunities, news, research policy intelligence and data on awarded grants. With Research Professional’s technology and attention to detail you can be confident that the material delivered to your researchers will be relevant and of interest to them, leading to greater satisfaction, engagement and ultimately awareness across your institution of the wider research policy and funding environment.

Research Professional Essentials

- Maximize funding opportunities
- Improve efficiencies & workflows
- Discover current global news and insights
- Leverage research policy knowledge to your funding applications
- Demonstrate the impact of the Research Office
- World class support, training & easy implementation
Delivering Value to Research Stakeholders

Funding Opportunities

The reality for most universities is that they draw funding from a variety of different sources. With Research Professional every type of funding opportunity, covering global, regional, and national funding sources, are curated by an experienced team of analysts and compiled into one comprehensive database.

Accelerate research activity:

- **Find** thousands of funding opportunities covering all disciplines
- **Discover** the widest variety of funders from across the globe
- **Share** funding opportunities with your colleagues
- **Automatically** create funding alerts for your users based on their research activity
- **Search thousands** of upcoming conferences and special journals seeking submissions through the built-in Conferences & Papers database

Proactive Approach to Research Administration

Networked Tools

Research Professional Networked tools offer administrators a host of new ways to share funding information within your institution and help research support staff work more effectively with researchers to improve funding awareness across your institution.

- **Find** and match funding opportunities with colleagues and faculty
- **Identify** what funding opportunities appeared in your user’s email alerts
- **Embed** search results on any of your institutional websites
- **Establish** automatic funding alerts for individual faculties, departments or research groups
- **Add** internal deadlines, contacts and other notes to funding opportunities
- **Integrate** with our Funding API to bring real-time data into your workflows and tools
- **Easily** disseminate and communicate funding opportunities with built-in customizable newsletters, announcements and funding calendars

Increase the research office impact and demonstrate ROI:

- Measure usage with sophisticated analytics
- Manage user accounts & access privileges
- Measure usage and activity stats
- View who is getting funding alerts and email updates
- Integrate your Google Analytics account for detailed page-by-page reporting
Funding Insights

EDITORIAL SUPPORT

Research Professional provides researchers and administrators with insights to help them increase success rates and make more informed decisions about whether they should apply to specific grants or funder calls:

- **Organised** into disciplinary hubs: A one-stop shop with materials essential for winning bids
- **Opportunity profiles** - Bespoke guidance on upcoming funding calls, gleaned from interviews with funders by our team of reporters. We cover detail that you won’t find in the call specification
- ‘**My winning proposal**’ - in-depth interviews with researchers who have successfully won funding in the past
- **Top PI interviews** - career stories of leading and upcoming academics through the grants they won and the lessons from the ones that got away
- **Know how articles** - authoritative guidance from the best experts on everything involved in winning research funding, furthering your career and ideas on how to boost your CV

**AWARDS/GRANTS**

With more than 300,000 awards from major funders all over the world including the Welcome Trust, NIH, Horizon 2020 and Australian Research Council and growing, researchers can utilize these resources to find the right opportunity using the right resources:

- Search and discover Research Professional’s database of grant winners, dating back to 2006
- Understand funding opportunities better by seeing a list of previous winners linked to an open funding call, the abstract of the winning proposal and how much it was awarded

Research administrators can use this data to inform research strategy by benchmarking their institutions vs. peer institutions.
News Service

Trusted intelligence for better decisions.

These days, there is a lot of news and announcements and staying ahead of it can be a challenge. Research Professional teams take on the task ensuring you stay ahead it all.

Our editorial team around the world, carefully collated, organized, and distil the most important developments into a flow of news that’s quick and easy to follow; from ethics to evaluation, open access to Science 2.0.

Focusing on research policy, research funding and research politics, our news provides regional, national and international coverage of government departments and funding agencies. We take an objective, independent view of events cutting through the gloss of press releases.

Our news provides invaluable insight, delivered through flexible technology, to everyone in your institution. That means sharper awareness of the policy and funding environment in which you are operating, putting you in a better position to make good decisions about where to invest, who to hire and what to do next.
